

## Change at Endress+Hauser

### Dr Peter Selders takes over as CEO, Matthias Altendorf new president of the Supervisory Board

Endress+Hauser has completed the announced change at the top of the Group: Dr Peter Selders has taken over as CEO of the Swiss specialist for measurement technology and automation solutions. The 54-year-old holds a doctorate in physics, has been with the company since 2004 and was previously managing director of the competence center for level and pressure measurement technology based in Maulburg, Germany. He is only the fourth CEO in the Group's 70-year history.

His predecessor Matthias Altendorf (56) is moving to the Supervisory Board after 10 years at the helm. In 2014, he became the first non-family CEO to succeed Dr Klaus Endress. He is now replacing the 75-year-old as president of the Supervisory Board. In future, two members of the third generation will represent the interests of the shareholder family: In addition to Sandra Genge, Steven Endress, a grandson of the company founder, joined the board on 1 January 2024.

Peter Selders has been succeeded at Endress+Hauser Level+Pressure by Dr Dirk Mörmann (50), who was previously head of technology and a member of the management board. Endress+Hauser had already announced all these changes in February 2023.

Dr Dirk Mörmann now heads the competence center for level and pressure measurement technology.

## **The Endress+Hauser Group**

Endress+Hauser is a global leader in measurement and automation technology for process and laboratory applications. The family company, headquartered in Reinach, Switzerland, achieved net sales of more than 3.3 billion euros in 2022 with a total workforce of nearly 16,000.

Endress+Hauser devices, solutions and services are at home in many industries. Customers thus use them to gain valuable knowledge from their applications. This enables them to improve their products, work economically and at the same time protect people and the environment.

Endress+Hauser is a reliable partner worldwide. Its own sales companies in more than 50 countries as well as representatives in another 70 countries ensure competent support. Production facilities on four continents manufacture quickly and flexibly to the highest quality standards.

Endress+Hauser was founded in 1953 by Georg H Endress and Ludwig Hauser. Ever since, the company has been pushing ahead with the development and use of innovative technologies, now helping to shape the industry's digital transformation. 8,700 patents and applications protect the Group's intellectual property.
